

CEUs - CONTINUING EDUCATION UNITS

Confined Space Entry & Emergency Procedures

[2 DAYS INSTRUCTION]

COURSE OVERVIEW

This informative program looks at the steps that must be taken to safeguard employees when working in confined spaces. The training is provided by the Municipal Health and Safety Association (MHSA) featuring their confined space trailer.

Viewers will become familiar with the hazards associated with confined spaces and the procedures necessary for a safe confined space entry.

The handbook, Confined Spaces Entry and Emergency Procedures, accompanies the program.

COURSE OUTLINE

• Contents include employer duties, work procedures for entering a confined space, how to recognize a confined space, confined space hazards, developing a program, confined space entry permit system, personal protective equipment, rescue procedures, confined space entry plan elements, Ontario Regulation 632/05 (General Confined Space Reg.), and regulation comparisons.

• Visit the [**Municipal Health and Safety Association**](#) for more details.

• Personal Protective Equipment: hard hat, safety glasses, work boots and gloves are required.

PREREQUISITE

Open.

TARGET AUDIENCE

Water and wastewater utility field staff.
