

# CEUs - CONTINUING EDUCATION UNITS

## WHMIS and Chemicals Used in Water Treatment

[ 3 DAYS INSTRUCTION ]

### COURSE OVERVIEW

WHMIS and chemicals used in water treatment will give the water plant operator on-the-job training to learn about the hazards, labels, MSDSs, protection, emergency actions, special situations, and regulations. The operator will perform and interpret a variety of tests: chlorine residual test, iron and manganese test, alkalinity test, jar test, and turbidity test. Calculations and calibrations will include: solution pump, dosage rates, water flow rates, and solution concentrations.

### COURSE OUTLINE

- Hazards.
- Labels.
- MSDSs.
- Protection.
- Emergency actions.
- Special situations.
