

CERTIFICATION

Water Treatment & Distribution I

[4 DAYS INSTRUCTION + 1 DAY EXAM]

COURSE OVERVIEW

To provide operators of water treatment and water distribution systems with the knowledge required to successfully operate and maintain community facilities, and successfully challenge provincial certification exams.

COURSE OUTLINE

• Water sources, characteristics and the hydrologic cycle
• Water treatment processes • Water distribution systems
• Support systems • Mathematics for water treatment and distribution system operators
• Provincial drinking water regulations • Exam writing protocol and practice exams.

PREREQUISITE

Operators should hold a valid Operator-in-Training certificate (i.e. Class 1 requires OIT and Class 2 requires Class 1).

TARGET AUDIENCE

Water utility field staff, water utility construction inspectors, and water system design personnel.
