

# CERTIFICATION

## Water Treatment & Distribution III

[ 4 DAYS INSTRUCTION + 1 DAY EXAM ]

### COURSE OVERVIEW

To provide operators of water treatment and water distribution systems with the knowledge required to successfully operate and maintain community facilities, and successfully challenge provincial certification exams.

### COURSE OUTLINE

• Water sources, characteristics and the hydrologic cycle  
• Water treatment processes • Water distribution systems  
• Support systems • Mathematics for water treatment and distribution system operators  
• Provincial drinking water regulations • Exam writing protocol and practice exams.

### PREREQUISITE

Operators should hold a valid Operator-in-Training certificate (i.e. Class 1 requires OIT and Class 2 requires Class 1).

### TARGET AUDIENCE

Water utility field staff, water utility construction inspectors, and water system design personnel.
